Update 09/2024: New owner. 56.600 km. 88 kW (120 PS). This European FIAT 124 spider has been an atypical car owned since 1984 by its owner couple. The bodywork was restored a good twenty years ago and now deserves a nice makeover. The chassis and floor are in good condition, while the paint has had its day. A good number of small defects appeared. A painting would be welcome. Mechanics in good condition, the engine and gearbox do their job very well. The original 1400cc engine was replaced by a 2000cc engine and its 4-speed gearbox, replaced by another, 5-speed. Interior in good condition. Soft top in very good condition. 09/2024 AS		124AS0008721	68	?	GB	?	?	red	black	black	rot	First entry 03/2022: Found at flickr in 2022. Update 09/2024: This 1968 Fiat 124 Spider is on the road, MOT'd in July 24 (expiry July 25). Logbook. Historic Vehicle registered so no tax or MoT necessary, but I MoT'd in July to find if anything needed. I bought this Fiat 124 last year, previous owner had it for many years, driven a lot. The car drove fine on purchase and bought it as a project. I bought another Fiat 124 that was dismantled with lots of mechanical refurbishment, including engine (I think 1700cc) which is now in this one. A classic Fiat UK specialist (Italcar) swapped the engines in March 24, cleaned and sprayed the engine bay prior to replacement refurbished engine installation. Additional new parts - battery (August 24), new alloy wheels and tyres (original wheels, tyres and caps included), new bumpers, new bumper lights, new grille (changed style, original included), refurbished alternator. The body is mostly solid. I have un-covered the areas in need of attention, some welding and filler oddly just one side (driver's side), and full re-spray and it will be a great example. I ordered a new thermostat in July owing to engine running a little hot, I tested new thermostat before installation and that was faulty and they have not replaced it since. So I have left thermo out for now.	Euro	Chrome	man.	1400 cc

From the estate of the esteemed Italian car historian Mr. Peter Marshall Converted to right-hand drive in its current ownership Complete with the rare factory hardtop. Peter bought the Fiat about 15 years ago as an LHD example, converted the car to RHD himself, but unfortunately used it only a little in his possession. The Fiat was last registered in 2009 with the current mileage and has since been stored dry with the rest of Peter's Italian classic car collection. Transmission: Manual. We are the second owner of this vehicle. It came from Warren, PA where it was purchased back in 2/27/73 by a friend of the family's. It has had all maintenances done up to 39,000 miles at a listed Fiat organization, which was Keystone Garage of Warren, PA. The vehicle does have some exterior cosmetic areas showing some rust but overall the exterior is in better shape than you would find most of them in. The vehicle does need new brake lines put on but we have already purchased those, they just have not been put on. It also needs new fuel lines due to the age they have shown there normal wear, and it also need a new hose that goes into the gas tank. It also needs a new exhaust from the manifold back. All belts and hoses have been replaced and we have heard the original motor crank just a couple months ago. The interior is immaculate and shows next to no wear and has never been smoked in. It also needs rocker panels / boards on both sides. For a vehicle of 1973, it is in pretty good shape. This would be a great project car! The vehicle was taken off the road in 1976 and has never been driven since. It was towed on a flatbed trailer from Warren, PA to Monroe, NC. When the vehicle was taken off the road it has remained in a garage from then on out of weather damage. The convertible top is still the original top that was on the vehicle when it was purchased. Odometer reading 90,628 km. Estimate GBP3,500 - GBP5,500. This attractive example is presented in deep blue with black leather trim and has been subject to a full re-spray and sympathetic body work in its recent history leaving this highly usable little sports car in great shape for the open road. Along with the body work, an engine re-build and new triple radiator has been fitted to increase the usability of this Spider and it is offered with eight months left to run on the MoT test certificate. Update 03/2021: New owner. Picked this up today. Needs a bit of work, mainly brakes and chrome bumper conversion. Also would like some steel wheels with chrome hub caps. Update 04/2022: I've decided to sell my Fiat 124 Spider that I have owned for just over a year. The previous owner bought it from Historics Classic Car Auctions for GBP7,840 + buyer fees in 2013. Aesthetically it's a very nice looking car but it's a bit rough around the edges. The car comes with a chrome bumper conversion kit. I bought the bumpers from Spider Point and the fitting brackets from Del Priore in Germany. I have also fitted an original set of refurbished steel wheels with NOS hubcaps and a new set of tyres. The car runs and drives but you can't drive it for more than about a mile as it will overheat. It will therefore need trailering away. Auctioned at Ebay in 04/2022 for: Starting bid: GBP6,000.00. Update 09/2024: New owner. Dismantled mostly entire car. Bought already dismantled entire car as a donor car for my other 124. Only used engine and gearbox. This engine was a runner last year. Think engine is the 1756cc, which was out of my other listed red 1968 Fiat 124. Many parts refurbished by previous owner, axles, bearings, general running gear, wheels. Two screen frames - No glass. New screen rubber. No hood but hood frame included. New bumpers. Newish stainless exhaust. Auctioned at Ebay in 09/2024 for: Current Bid GBP 255.00.	US	none	man.	1800 cc

This 1975 Fiat 124 Spider was acquired by the seller in February 2024 and subsequently underwent a mechanical refurbishment. Work involved refurbishing the radiator, installing a Weber carburetor and custom exhaust system, and replacing the battery, alternator, water pump, thermostat, fuel pump, drive belt, and timing and brake components. Finished in red with a black convertible soft top over black upholstery, the car is powered by a 1.8-liter inline-four paired with a five-speed manual transmission. Additional equipment includes 13" Cromodora alloy wheels, four-wheel disc brakes, a black top boot, and wood interior trim. This 124 Spider is now offered at no reserve with parts purchase receipts, repair manuals, spare parts, and a clean Oregon title in the seller's name. The car was refinished in red following rust repairs along the body under previous ownership. A replacement black convertible soft top has been fitted but is noted to exhibit holes and tears. Exterior details include a black top boot, bright rocker panel trim, LED front blinkers, and General Electric headlights. The front bumper is missing, the chrome finish is falling on the rear bumper, and rust is noted on the underside of the passenger door. ULTRA RARE Fiat Fiberglass Hardtop purchased right here in Norristown, PA from a Fiat dealer. I installed a New Battery so that I could drive the car home. Car has been sitting for 3 years. Starts right up and idle a little rough but does fire on all cylinders and shifts through all gears just fine. Once the engine runs for a few minutes it idles just fine. Previous owner had to get rid of the car. I am thinking of completing the body work and getting the cooling system back in order. This car comes with history since 1993. The carpets, dash and seats (one tear in the driver's seat) are in great shape. The old Ford radio does not seem to work. some body work was started and just needs to be finished. The frame on the car is VERY solid. The drivers' side floor has been replaced. The other floor panels and trunk are solid. Because of the hardtop being installed, the softtop frame is MINT. The top itself needs to be replaced. I have all 4 original rims and a spare rim as well as 2 extra rims currently on the car. The tires are all holding air but are not all the same. I spare tire is also included. The engine runs fine but does start to overheat after about 20 minutes. It is either the thermostat or the water pump. The brakes stick a little since the car has been sitting for a while. There is NO RUST around the headlights. service records are available. Auctioned at Ebay in 09/2024 for: US \$1.459.00. Damals wegen den kalifornischen Abgasbestimmungen mit Abgasrückführung ausgeliefert (81 PS)! Ich hab vor Jahren diese Anlage ausgebaut und dafür eine 4in1, 1800er Abgasanlage verbaut mit einem 34er Weber Vergaser! So läuft der Motor viel befreiter und hat ca. 100 PS. Der Spider ist bei mir eigentlich nur bei schönem Wetter gefahren und hat erstmal so gut wie kein Rost (vorne Ministelle wegen Steinschlag, hinten links Endspitze mini Blase und unterm Fahrersitz minimal! Nirgends irgendeine Durchrostung! Faltdach originaler Stoff, so Dicht wie ein Cabrio damals war und Kunststoffheckfenster vor ca. 6 Jahren neu Lack ist stumpf, vor allem die Motorhaube und der Kofferraumdeckel. Innenausstattung sollte irgendwann mal überholt werden. Teppiche, Kunststoffteile rissig, vergilbt, Kunstleder vergilbt sprode, Sitze Kunstleder zwar recht neu aber sitzt teilweise nicht schön) Fahrertüre hängt etwas. Lenkgetriebe hat Spiel und sollte auch irgendwann getauscht werden. oder Getriebe überholen lassen. Motor läuft prima und ist immer wieder gewartet worden. Zahnriemen neu 2020. Kupplung ist vor 8 Jahren neu gekommen, Haldex (Antriebswelle) vor 7 Jahren! Der Vorbesitzer hat am Wagen folgende Änderungen vorgenommen: Rücklichter auf Runde (angeblich Vorserienstand 1967) umgebaut. US Stoßstangen auf 1600er Spidereuropa mit schwarzem Lack. Der Fiat 124 Sport Spider kam 1992 aus den USA nach Deutschland. Auf offensichtlich sehr gesunder Basis wurde der Wagen dann professionell neu lackiert. Er war dann einige Jahre als Sommerfahrzeug unterwegs, bevor er 2000 in die Hände eines echten Enthusiasten kam. Alleine 2000 und 2001 wurden rund 10.000 investiert, dazu jede Menge eigene Arbeit des Besitzers. U.a. wurden das Verdeck (beste Sonnenlandqualität) und die Echtlederausstattung gemacht. Sehr schön individualisiert wurde der Wagen natürlich auch, u.a. mit CD 30 Felgen, einem Sportauspuff, Veredelung des Innenraums und vielen anderen Details. You are bidding on a 1980 Fiat 124 Spider 2000. Odometer shows 86k miles, and the previous owner put mainly freeway miles on it. I have driven this car very little since I bought it. I have taken it out on weekends, and to shows every once in a while. It has been Fiat enthusiast owned since new. It has been serviced by the same Fiat specialist for the past decade. Rebuilt Motor and Transmission, this car is ready to get in and drive. Tires have plenty of tread left on them. The seats are in great condition with no rips or tears. The dash has no cracks. Top is in good condition. Original radio, Power windows, and the Heater still works. The passenger side speaker has been disconnected, and the driver side window is slow to roll up. Comes with a new black shift boot that needs to be permanently attached with the wood base. Garage kept, this car shows no signs of rust in any of the troublesome areas on Fiats. This is a Federal car, so it does not have to pass California Emissions (though it will), this Fiat also comes with a car cover, dash cover, extra (used) floor mats, and top boot. Up for sale is an exceptional, smog-legal, 1980 FIAT Spider 2000 in Silver over Tan leather with factory Power Windows. It underwent a Concours-level restoration in 2015 inspired by the work done by Roadster Salon and has been driven 1,196 miles since. Full receipts and service history are provided. This 1980 Fiat Spider 2000 was originally sold at European Motor Cars in Walnut Creek, California and remained with the same family until the car was acquired by Bay Area concours and Italian car specialist JT Bernhardt in 2022. This example has been lovingly upgraded with the intent of making it adaptable to modern driving and road conditions including Carello H4 headlights, modern radio, Anza muffler, 15x7 Auto Ricambi Competizione wheels, Koni shocks, and progressive-rate lowering springs. All of the serviceable original parts are included as part of the sale. For sale: \$38,200.	US	Safety	man.	2000 cc

Update 09/2024: New owner. 34,000 Km. A rare Pininfarina 124 Spidereuropa with original paint and bodywork, originally delivered for the Japanese market. This vehicle has an exceptional body and has an extremely low mileage for its age, with approximately 34,000 km (21,000 miles) on the odometer. The low mileage was confirmed by an inspection at DTR. According to the Ricambi table 'Car Model Identification', a total of 84 Pininfarina vehicles were delivered to Japan in the 1983-5 model years. This car has the GM 3-speed automatic transmission, which was available as an option for the US and Japanese markets. While the interior of the vehicle is in good overall condition, it has the usual cracks on the top of the dashboard and would benefit from a refurbishment. The convertible top is probably original and will need to be replaced or repaired in the future. The price has been adjusted accordingly. The car was imported from Japan in the summer of 2018 and acquired by its current owner in the summer of 2021. Since its acquisition in 2021, major maintenance has been performed, including a new timing belt, tensioner, and water pump. After the recent adjustments by DTR, the car drives smoothly. 08/2024	BS1	124BS10062691	72/11	73	USA	New Mexico	?	480 light blue	black	black	blau	Mileage 95646. Transmission manual. Vehicle Title Clean. This 1973 Fiat 124 Spider was recently moved out of storage after 7 years. Another classic car's brake failed, struck it while parked, and pushed it into another classic car. Unfortunately, the Fiat was uninsured. I am selling it as a parts car, or replacement tub or for total restoration. The original owner was a doctor in Savannah, Georgia, who owned it for 7 years. The second owner who lived in El Paso, Texas, owned it for 36 years, and is practically rust free. I bought it in 2017 from his daughter after he passed. It comes with a clear NM title with 95,646 actual miles. All the paperwork I have comes with it. The car ran before it was damaged, but now it would need to be restored or parted out. All the chrome is in very good condition, no pitting. The paint is all original with the exception for the now damaged hood. All the glass is in very good condition. Comes with factory tool kit box. The interior is original, but again, it was a preservation car and needs restoration. The dealer-installed air conditioning is complete. It goes into gear and the brakes work. It has new Toyo tires and comes with tonneau and interior covers. It also comes with a new ABS dashboard cover, a new starter in the box, new mechanical fuel pump in the box, electric fuel pump, and carburetor rebuild kit, Fiat repair manuals, owner's manual, and various other parts. There is a new replacement convertible top still in the box. Unfortunately, the clear vinyl window is discolored, and a new one would have to be sewn in. The existing top is in tatters. Car is in immaculate condition and is running and fully functional. NO RUST / NO BONDO. For sale: US \$9,750.00. Update 02/2022: New owner. In 2020 I found what looks like a gem locally here in Arizona. The car itself shows very well, it has some minor issues but the big thing is NO APPARENT RUST. It's been upgraded throughout the years with various non-stock parts and I'm not sure how that affects the value. It comes with a whole truckload of spare parts which seems to be fairly common with these things. It was already so far from stock that I've decided to follow the ethos of Colin Chapman to "Simplify and add lightness" everywhere I can with this car. The purpose of this build is to have a 124 Spider distilled down to it's essence. In Resto modification. Update 08/2024: It's heavily modified from a purists point of view, but everything I did was to make it lighter, simpler, and more reliable. Arizona car, rust is non-existent. Undercarriage is the best. Runs and drives excellent. Excellent paint and body, zero dents (near show quality). Car shows 50,789 miles (probably not actual but you never know, it looks great). Comes with tons of spare parts including a full set of wheels, the full factory wiring harness, tons of mechanical spares, and extra transmission, and a high end car cover. It's been mostly just sitting in the garage with it's cover on. For sale: \$8,800.	US	none	man.	1800 cc

I have been collecting, restoring and servicing Fiat, Lancia and Alfa Romeo automobiles for over 20 years. This car came to our shop at the end of June. In the interim, it has been gone through top to bottom, front to back. No expense has been spared or detail missed to make it the best that it can be. BODYWORK: The body was gone through on this car prior to our acquisition. I would guess the paint is about five years old. At that time, the rear wheel arches were replaced, as well as the outer rocker panels. The rockers are proper fitting Pininfarina parts, not the inferior aftermarket panels. The car was resprayed in the original Bianco, paint code #212. NO RUST WHATSOEVER. CONVERTIBLE TOP: The top looks to be two or three years old. It is a Stayfast fabric top, probably made by Caribou Canvas. INTERIOR: We stripped everything out of the interior and trunk. Old factory undercoating that was coming loose on the floor was scraped off. The floor, insides of the doors, insides of the rear quarter panels and insides of the front fenders and trunk were treated with POR-15 rust converter as a preventative measure. Dynamat sound deadener was installed on the floor, followed by a layer of aluminized, closed cell foam insulation. The nearly new nylon loop carpet was shampooed and reinstalled. A new heater valve was installed, and heater control cables lubed and adjusted. The dashboard and console, which both had a few cracks, were treated to new Coverlay covers. All of the instruments had the rims and lenses removed for a thorough cleaning inside and out. The clock received a new lens. The seat pans were sanded and painted. Seat tracks cleaned and lubed. The seats were redyed to freshen them up. New chrome trim was installed on the armrests and map pockets. The trunk was refinished in an attractive and durable spatter paint. Finally, a Blaupunkt Indianapolis CD player was installed, with JBL speakers, a Sony amp, and a new electric antenna. ELECTRICAL SYSTEM everythings works. TRANSMISSION: This particular trans has a new filter, pan gasket and fresh fluid. New cooler lines were fabricated by a local hydraulic shop to replace the leaking originals, a new downshift cable was fitted, as well as a new speedometer cable. It works great, doesn't leak a drop, and is incredibly pleasant to drive. ENGINE: You could eat off of any part of this engine or engine compartment. We have rebuilt the distributor, with new cap, rotor, seals, bearings and pickup. New plug wires are installed, which are connected to new NGK spark plugs. A new timing belt has been fitted. Confirmed by manufacturer Pininfarina. Update 08/2024: 120.000 km. Getriebe manuell. Wir haben hier einen Scheunenfund in einem tollen Zustand. Dieser wunderschöne Pininfarina hat vor 20 Jahren eine frische Inspektion bekommen, wurde dann in eine trockene Garage gestellt und aus privaten Gründen nicht mehr bewegt. Was bisher gesagt werden kann ist, dass uns kein Rost aufgefallen ist. Auch der Unterboden ist in einem guten Zustand. Es war wohl mal ein Unfallschaden hinten rechts, der Lack reißt hier an ein paar kleinen Stellen. Die nächsten Schritte werden und sollten hier sein, die Öle zu wechseln und Spülungen vorzunehmen und dann den Motor zum laufen zu bringen. Dies wird keine Schwierigkeit darstellen, der Motor dreht leicht durch und der Spider wurde vor 20 Jahren in die Garage gefahren. Neue Reifen müssen drauf gezogen werden. Das Verdeck sowie die Innenausstattung sind die Highlights, sie sind in einem super guten Zustand. Zu verkaufen: 8.888 EUR VB	US	Safety	man.	132C3.031

This 1969 Fiat 124 Spider was acquired by the seller five years ago following 30 years of storage, and was refurbished between 2020-2021. The work included a repaint in red and a rebuild of its 1,498cc inline-four as well as servicing its five-speed manual transmission and replacing its clutch, suspension bushings, shocks, and braking components. Features include a black convertible top, a mahogany-trimmed dashboard, and 13" steel wheels with chrome hubcaps. This 124 Spider is offered with service records from current ownership and a California title in the seller's name. Auctioned at BaT in 01/2022 for: Sold For \$20,500. Update 09/2023: 41k Miles Shown. This 1969 Fiat 124 Spider was acquired by the seller on BaT in January 2022 following refurbishment. The red-over-black convertible is powered by a rebuilt 1.5-liter inline-four linked with a five-speed manual transmission, and it is equipped with a black soft top and steel 13" wheel with hubcaps in addition to four-wheel disc brakes, and a wood-rimmed steering wheel. The brake fluid was flushed, a Weber carburetor was fitted, three-point seat belts were installed up front, and the taillight lenses, steering wheel, battery, muffler, and hood insulation were replaced since the last auction. This 124 Spider is now offered with manufacturer's literature, service records, a tool kit, spare parts, and a clean California title in the seller's name. This 1971 Fiat 124 Spider is finished in Positano Yellow over black vinyl upholstery and powered by a 1,608cc twin-cam inline-four paired with a five-speed manual transmission. The car was reportedly purchased new by the current owner's uncle and was inherited by the owner in 2005. The carburetor was rebuilt in March 2023 and work performed in 2021 involved replacing the timing belt, fuel pump, speedometer cable, and brake master cylinder. Equipment includes a black soft top, an ANSA Sport muffler, a wood-rimmed steering wheel, and an Alpine CD stereo. This 124 Spider is offered by the seller on behalf of the current owner with the removed factory radio, manufacturer's literature, service records beginning in 2005, and a clean Michigan title. Auctioned at BaT in 06/2023 for: Sold for \$22,250. Update 07/2024: New owner. 21.000 Miles. One of the nicest and most original 124's left in existence. Title: Clear. very clean, I went through the engine and transmission on this car replacing all the engine seals and rebuilt the cylinder head with new valve seals valve job and it runs great and, looks great, I also put in a new clutch, and it has a fairly new ANSA muffler. This car was painted a couple years ago with PPG concept ferrari yellow with clear coat it cost 2000 dollars for the paint job alone, the paint is nice there are a few small blemishes I consider this car a nice driver not a show car, the paint is 7 out of ten, very nice but not perfect. The floor pans are solid and I repainted and sealed them back up with rust proof paint taking all the old insulation out and replacing with dynomat insulation I put new carpet in and floor mats the interior is nice no rips in the seats really good for the age of this vehicle, there is a crack in the top of the dash that was repaired, but its not perfect looks decent though, there is a new convertible top installed looks nice and tight. I have a spare set of wheels turbine style rims, and alot of spare electrics with relays and also it has a nice used luggage rack that I didn't put on but it can be installed in minutes. the dash has a new wood kit and all the lights work this car is ready to drive. The body has a 5 year old paint job with rust showing in one spot. Two tires are new and two are almost new. The convertible top works great but the window does have a crack in it. One section of weather stripping is loose and will allow rain in when it is raining heavy. Interior is good as well. There is a small crack on the dash and several cracks in the center consol cover. All carpets are there. Last inspection was May 2, 2006. I had the Spider tuned up, carbon clean and an oil change. No problems passing others on the hwy. The engine needs a new gaskets as above. A very bad red paint over an equally bad yellow paint over the original blue. The blue is under the carpets, so I think it is the original. The last paint was a very bad red, with lots of fiberglass and bondo. EVERY wire under the hood has been cut. You can see through the floors to the ground on both sides. I can also see bad fiberglass work in the wheel wells. And I know there is lots of bondo around the wheel arches. Other than that it seems like surface rust, but this is my greatest fear. Is there enough metal to work with. It was not running when I got it. All I know is that it can be turned over by hand. Other than that it looks like all the parts are there. I probably wont even go there until I make a decision on the body. Nothing can be saved. All the plastic is cracked and broken. There may be a few gauges that can be saved. In restoration. The car was listed as "almost perfect," but that was not entirely true. After some work, it is NOW almost perfect. There is no rust, the brakes have been redone, carburateur rejeted, brand new carpets and leather upholstery. The convertible top was replaced by the previous owner one year ago. The trunk was also redone. The engine is strong. The power windows are a little slow going up and down. All glass, including that in the convertible top, is good. All gages on dash work. Lights, directionals, etc. all work fine. The chrome on the bumpers is not pitted or rusted. The car was re-painted from a metallic brown to red. The paint job is not bad, but some prep work was a bit lacking. It needs a pair of visors and a boot for the shifter. Throw-out bearing hums a little, but shifts into gear with no problem. The car starts every time when driven regularly. If it sits for a long time, the clock drains the battery, which is new. I have all maintenance records, manuals, and even the dealer sticker. L'auto importata dalla California dove avrà viaggiato sicuramente su e giù per la west coast è arrivata prima in Germania e poi in Italia. L'auto al suo arrivo era perfettamente marciante, senza punti di ruggine e senza aver subito incidenti, ma di un colore differente dal suo originale. Ed è qui che è iniziato un lungo intervento di restauro, meticoloso, attento, faticoso ma altrettanto affascinante. L'auto è stata completamente smontata, la carrozzeria è stata portata a ferro e verniciata nuovamente nel suo colore originale di fabbrica, lo smoke green codice 899, prodotto solo nei due anni 79 e 80. La carrozzeria è sanissima con pianali sotto scocca originali di fabbrica, non è presente antirombo così come saldature successive. Da qui in poi la spider è stata riassemblata sostituendo o ricondizionando ogni pezzo o parte di essa. Il rivestimento die sedili e pannelli è stato sostituito con skay marino dello stesso colore e consistenza, facendo attenzione a replicare le stesse cuciture e dello stesso colore. Capote nuova di marca tedesca Sonnenland, a triplo strato: nuova moquettes interna così come nel vano baulliera. The transmission works flawlessly and makes the car very easy to drive in traffic or on city streets. Mechanically this car is in good condition. The black canvas top is in good condition. Prior to me owning it, the fuel pump was changed to an external pump, instead of the one that came originally inside the gas tank. The fuel pump is located in the trunk. The exterior is in good condition. It is painted red and was repainted before I purchased the car. No rust, but does have a few places where the paint has been chipped. It has been kept ina garage, covered for the last seven years, and only driven in good weather. The interior needs minor work. The engine Compartment, undercarriage and trunk are clean and complete. Original spare wheel and jack are in the trunk. Wheels and Tires are in good condition. Auctioned at Ebay in 04/2007 for: US \$4,250.00.	US	Safety	auto	2000 cc

Highly-original example of Pininfarina's own Spider. Presented in stunning Rosso Vivo. this Pininfarina Spider Azura is believed to have remained in the dry Colorado climate until recently, and has most recently been on display at Denver's fabulous LeMay Auto Museum. The Spider was reportedly purchased used in 1990 from the originating dealer, with just 9,500 miles from new. The cars second owner carefully maintained the car, using it sparingly, until the consignor purchased it in 2013. remains in highly original and well cared for condition, and the cars odometer reading just shy of 15,000 at the time of cataloging is believed to be the actual mileage. The previous owner carefully kept great records for the car, and saved many of the service-parts that were replaced over the years. The car has been carefully preserved over the years, and many of the factory finished are indeed believed to still be original and unrestored. The car is offered with period Paraphernalia, original owners manuals, tools, tonneau cover, a comprehensive history file and old, original replacement parts taken off the car in the past.
