03/2026	BS1	124BS10058435	72/06	?	USA	Massachusetts	Barnstable Ct.	317 bottle green	tan	tan	green	I've owned the car for about twenty years, and it shows about 70,000 miles, which might be accurate. The car is Italian racing green with a tan interior. It runs well and has no significant mechanical problems. I replaced the carburetor with a DFEV (and 1800 manifold) because the original DHS (which I still have) had vacuum leaks at the throttle butterfly shafts (which admittedly might raise questions about the odometer reading). I don't recall that I've had to do much else to the car, though I recently replaced the brake hoses and the differential seal. The body is pretty decent, though with a few issues. When I got the car, it had been crumpled just inside the left headlight. I did some repair, but because I was making my first attempt at solder work, it's only much better, not great. There was also a dent at the front of the hood—my bad—which I did a good job of repairing (solder no more), but the new paint is not well blended where it ends on the hood. The car was apparently also hit in the right rear during prior ownership, because there's some evidence there and the paint on the trunk lid and tops of the quarter panels is cracked/crazed, suggesting repainting with poor prep. The rockers have some surface rust, and there are some other spots of rust. I've recovered the interior, which looks great, and I recently replaced the top with a new tan vinyl one. It's a very original chrome-bumper car with the 1608cc engine. For sale: \$10,000	US	Chrome	man.	125BC.040

The engine has been replaced with a Ford 2.8 V-6 engine and 4 speed transmission. Whoever did the work did a very nice clean job and didn't modify the body at all except cutting the windshield frame and core support. Its been lowered, has 4 wheel disc brakes, a roll bar and wide 13 inch aluminum slot wheels with Goodyear racing tires. Its been sitting for a few years and should be tuned up but it does run very well. After it warms up a little it idles and sounds like a race car should. But its not street legal so I have never driven it and the tires leak and are very dried out. I don't know what's been all done to it but the engine sounds built, the clutch, brakes, gas pedal, electric fuel pump, tach, oil pressure gauge all work as they should. The paint is pretty nice but it is a race car and has a few chips and the paint is rubbed thin in spots on the door mostly. The body is really straight and totally Rust Free. HE BOUGHT THE CAR WITH THE INTENTION TO RESTORE IT BUT FOUND THAT HE NEITHER HAS THE TIME OR THE MONEY. WHEN HE PURCHASED THE CAR HE DID NOT RECEIVE A TITLE SO THE CAR COMES WITH LIEN SALE PAPERWORK BUT NO TITLE. THE CAR DOES RUN AND DRIVE, THE TRANS SHIFTS THROUGH ALL THE GEARS AND THE BRAKES WORK. ALL THE GLASS IS GOOD IN THE CAR AND THE BODY IS IN VERY GOOD SHAPE WITH ONLY A COUPLE MINOR DOOR DINGS. THE ONLY REAL DAMAGE IS A SET OF HOLES IN THE REAR TRUNK FROM AN OLD LUGGAGE RACK. THE PAINT IS IN FAIR CONDITION. MOST OF THE INTERIOR IS IN GOOD SHAPE, THE SEATS APPEAR FINE AND THE DASH LOOKS GOOD WITH THE EXCEPTION OF A CRACK IN THE CENTER OF THE TOP PAD. THE ONLY REAL FLAW IN THE INTERIOR IS THE CENTER CONSOLE AND THE IGNITION SWITCH. THE CAR STARTS UP AND RUNS OK BUT IT DOES ACT LIKE IT NEEDS A TUNE UP. THE BRAKES ON THE CAR SEEM TO FUNCTION FINE BUT THE PEDAL FEELS A LITTLE LOW. I HAVE NOT FOUND ANY REAL RUST ON THIS CAR WITH THE EXCEPTION OF SOME SURFACE RUST/BUBBLES ON THE REAR TRUNK LID. Es handelt sich um ein US Auto, es wurde aber komplett auf den EU-Spec zurückgebaut. Einiges wurde komplett neu gemacht, gesamte Elektronik ist generalüberholt, neuer Lack in Ferrari Rot. Radio fehlt, Getriebe aktuell laut, Zahnriemen vor 6 Jahren getauscht. Seitdem aber maximal 150km gefahren. Zustand alles in allem sehr gut, insbesondere für das Alter. Keine Zicken. Batterie muss ggf. gewechselt werden, Anlasser/Zündkerze/Batterie macht den Startprozess langsamer, startet aber immer. Versteigert bei Ebay in 03/2026 für: Startgebot EUR 15.000,00. First entry 12/2007: One of the last known VINs of a Pininfarina Spider found via http://www.autocheck.com. Records found for this vehicle: 16. Update 09/2023: Mileage 89500. Vehicle Title Clean. Transmission Manual. 1985.5 Pininfarina Spider Azzurra... a rare beauty. only 1200 were made and less than 200 are in the US. We are the 3rd owners of this wonderful car. We have ALL service records from 2001 on as well as clean title and CarFax. The exterior of the car was refurbished 15 years ago with rust removal and new paint. Some minor rust has reappeared, but it small. The rear vinyl window is unfortunately cut, but the car has been garage stored. The interior needs a bit of love. Seats need new upholstery and the dash is cracked. Door panels should be repaired. The car runs VERY WELL. Power comes from a 2.0-liter DOHC inline-four paired with a replacement five-speed manual transmission. Original equipment consists of rack-and-pinion steering, 14" eight-spoke wheels, four-wheel disc brakes, a Momo three-spoke steering wheel, an aftermarket CD stereo with amp and speakers. The car has NEW tires and brakes. Upgraded Ansa exhaust as well as new shocks and springs. He electrical system also needs a bit of love as the horn is not functional and turn signals are fickle. Auctioned at Ebay in 09/2023 for: Current bid: US \$5,000.00 Reserve not met. Update 03/2026: New owner. Former Washington D.C. car. Update 02/2026: 80.825 km. Manual transmission. 4 kW (114 PK). The Spider came from California, USA, to the Netherlands in 1991. The first Dutch owner had it until 2009, after which we bought the Spider from him. In the 18 years he owned it, he had only driven about 8,000 km with it. This was also evident from the engine and gearbox, as almost all the gaskets that could leak were leaking. For this reason, shortly after purchasing it, we completely disassembled and overhauled the engine and gearbox. Invoices for this work are available. Over time, many improvements and replacements have been made to the Spider. For sale: 19.950 EUR	US	Chrome	man.	1800 cc

Manual transmission. Clean title. This Fiat 124 spider features a 2.0-liter, twin overhead cam, fuel injected engine, for lively and responsive performance. It runs smoothly and starts easily, even when cold. The manual (5 speed) transmission shifts smoothly into each gear, with easy operation of the clutch. The tires are like new. We replaced them and have put very few miles on since then. The top is in new condition and fits well, opening and closing as it should. All window glass is present and in good condition. The 2-speed heater/defroster blows warm to keep you comfy when temps get cool. It drives well, tracking straight and true without pulling to one side or the other. The shocks respond well, giving a smooth ride and great handling. The brakes are responsive and stop in a straight line. The interior is functional and comfortable. The leather interior shows the expected wear. The previous owner liked the look of the earlier narrow bumpers and converted the car to those, providing a sleek appearance. There are a few items to note that need improvement. The paint is not in great condition and shows some color fade in areas. The rocker panels have some rust in the usual areas to be expected and could use repair. For sale: 3.750 \$.	US	Chrome	man.	2000 cc

Update 02/2026: New owner. Former Maine car. Mileage: 52,092mi. This car is mostly original! Excellent interior with only some plastic fading. A complete soft top and low mileage would make this car an excellent car for someone to begin their car collection. The paint does show signs of bubbling in a few places as these cars are very well known for rust issues. This one has been kept in-doors in a dry garage which has prolonged its life. There is rust on the a-arms and some suspension parts, but everything is still VERY solid. The hardest pieces to find, like the interior, are in excellent condition. This car is in excellent unrestored condition. For sale: \$14,000	US	Safety	man.	132C3.031

This car, which has the 1608cc four cylinder engine and the five speed manual gearbox, has been fully rebuilt, with most of the work taking place in 1996, and there is a photographic record of it all. It was completely stripped down with the engine and gearbox being reconditioned and it has been re-chromed, had a new hood fitted, new carpets and mats fitted, new wheels and tyres, new door panels and a complete respray by the owner who was at that time, a garage proprietor. The present owner has recently replaced the brake calipers, the handbrake and the prop-shafts and he informs us that he has only covered a mere 2000 miles in the last two years. We are informed that the car is still in very good condition throughout. Auctioned at classic-auctions.com in 1999. Update 01/2026: 68,000 Miles. Manual transmission. 1608cc. Fiat Spider desirable, formerly from the USA, excellent condition bodywork & complete new paint job, the engine has a new water pump, cylinder/timing belt, spark plugs, ignition wires, contacts, distributor cap, oil change; runs excellently, all brake calipers overhauled with new seals & rubber hoses, complete stainless steel exhaust system. Black interior, seats without tears, needs a new convertible top (I have a compatible hardtop), many spare parts for the car, V5 in my name. For sale: GBP 6.500.	US	Chrome	man.	1600 cc

Manual transmission. 1975 Fiat 124CS Spider is being sold on behalf of an acquaintance, who has to give up ownership for health reasons. The car was sold new in California in 1975, and came to Norway in the spring of 2007. The current owner has had the car since the autumn of 2007. The car has never been rust-repaired and is very intact and solid. Between roughly 2008 and 2012, the car was partially dismantled and fully painted. The mechanical parts were overhauled, and the original US carburetor with vacuum and recirculation (which it was sold with due to emission requirements in the USA) has been replaced with two brand new Weber IDF40s (original Italian). The project then stalled, and the car has been in storage, with some periods during which it was reassembled. It is now EU-approved, registered, and drivable, but some work remains to get the car 100% ready, including finishing the installation of the convertible top and some interior work. Update 01/2026: 100 000 km. Manual transmission. I am selling my 1977 Fiat 124 Spider. Everything has its end, and I have had this one for almost 20 years; now maybe you can have as much fun as I have had. About the car: It is from February 1977, was exported to the USA, where, as far as I know, it was in use until around 1997 when it was imported to Germany. There, it had two owners before I went down to Hamburg and bought it in September 2006. At that time, it was painted burgundy with a lot of paint flaking (originally it is orange). I stripped the car and found out it had had a few accidents in California, so I ordered some body parts and had a bodywork specialist handle the rest. Almost without rust (the bottom of the doors is soldered), the car went to the painter and received the color Fiat Racing 1982. I have continued the work myself ever since. The car is mechanically as good as one can expect, and the engine and drivetrain are very good. The car came with roadster equipment, but it is rarely needed. I changed the convertible top and upgraded the seats to leather, as well as a new console. The dashboard repair was a bit unfortunate: I chose a slightly too cheap solution. Eventually, I also switched to European bumpers in the front and rear, which makes the car lighter. There were no problems with EU approval, it is valid until 2027. Otherwise, the fuel gauge doesn't work, the oil pressure gauge doesn't work, and I have replaced the clock but haven't connected it properly. The trunk lid: I have obtained a lock arm and key, but haven't found the time to replace it. The car has been stored in a dry garage all these years, and some parts are included, along with documentation and parts catalogs. For sale: 165 000 kr	US	Chrome	man.	1800 cc

01/2026	CS0/2000	ZFA124CS000177428	80/06	?	USA	California	SF Bay - North Bay	red	beige	beige	beige	beige	red	First entry 09/2019: condition: excellent. odometer: 45263. title status: clean. transmission: manual. I bought the car in March, 2015 from the previous owner in Reno, NV. I believe they owned the car since the early 2000's and I have service records back to 2004, when the car was listed with 40,092 miles. It currently sits with 45,263 miles, and yes, those are original miles. The center console still has the original plastic covering the carpeting. As mentioned, I have service records from their ownership and through my current time with the car detailing the work that's gone into the vehicle. Brakes, suspension, exhaust, motor...the list is extensive and all work was done by a local, reputable Fiat specialty shop. The title is clean, no accidents. The gauges all work, including the clock! The top is in good condition. The exterior shows little to no wear or fading, but the interior does have some strings where it is breaking down a little. The seats have no tears, the dash has two small cracks near the vents, and the center console has some damage. The car always fires up straight away, and has passed CA smog without issue during my ownership. The car is virtually rust free, which tends to be rare with these cars. There was an AC installed, but I've actually never even tried it. For sale: \$10000. Update 04/2021: New owner. Found at fiat spider.com. Update 01/2026: condition: excellent. odometer: 48,674. I've had the pleasure of owning this lightweight, fun Italian classic for 5 years. Prior to my ownership it was owned in Reno, Nevada and Pleasanton, CA - both hot, dry places, so there is no rust on the car. I have a binder full of maintenance records from the prior owners, and my own spreadsheet and folder of receipts of everything I've done for it during my ownership in the last 5 years. It fires up instantly on even the coldest morning and runs great in all conditions. Notable maintenance within the last 5000 miles: Engine maintenance: new spark plugs, new O2 sensor, AFM and fuel injectors rebuilt by Fuel Injection Corp, new air filter, new fuel pressure regulator, new fuel filter, valve clearances checked. - Cooling system overhaul: All coolant lines replaced, new thermostat, new aluminum radiator. Heater core replaced. Suspension overhaul. Brake system overhaul. All fuel and vacuum lines replaced. No fuel or vacuum leaks. Driveline maintenance. Factory tonneau cover included.
